TRANSFORMER XT

Group: II/III / Weight: 15 up to 36 kg / Age: 3 up to 12 years

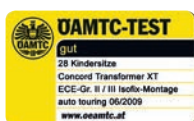

SAFETY WITH THE HIGHEST DEGREE OF SIMPLICITY AND COMFORT

The Concord Transformer XT achieved a test rating of 'good'. With an overall score of 2.0, this makes it the best child car seat in Group II/III with sit/recline inclination and the only one that can be adjusted in the shoulder area according to size, thus combining comfort with safety. The Concord Transformer XT proved its worth in the important subcategories of 'accident safety', 'side impact protection' and 'handling', which were all also rated 'good'.

A quantum leap in function and design: the CONCORD TRANSFORMER XT child car seat provides hitherto unknown ease of operation. Headrest, shoulder protectors, and sit/recline inclination – all important functions can be operated at the touch of a button, supported by a pneumatic system. The seat grows continuously with the child, thereby ensuring a truly comfortable ride for children aged between 3 and 12. The seat's closed shell shape guarantees maximum safety at every age. With its original design, the CONCORD TRANSFORMER XT sets a clear example: a new generation of seat.

Dimensions: L 45 x W 45 – 55 x H 63 – 82 cm / Weight: 10.4 kg

- VARIOSIZE SYSTEM: headrest height as well as shoulder protector height and width continuously and simultaneously adjustable at the touch of a button, pneumatically supported
